Cost Recovery Agreement

By signing this application, the applicant understands and agrees that, pursuant to Longwood City Code Chapter 59, all direct costs, expenses and fees incurred by the city relating directly to the review, processing, inspection, or regulation of an application, including but not limited to the time of city consultants, as well as those relating directly to advertising, surveying, legal and engineering for an application or project shall be assessed to the applicant and reimbursed to the City.

For projects in the Historic District, the department may seek the input of a licensed architect with specialization in historic structures to evaluate submittals, the cost of which would be the responsibility of the applicant.

To cover these costs, many applications require a review retainer. The review retainer will be held during the course of review, and returned to the applicant once project review has been completed or the application has been formally withdrawn and after all outstanding invoices are paid. The review retainer is not to be used to pay invoices during the course of review, those will be sent separately to the applicant.

Full payment of all fees is a requirement for City's final approval of the Application. Following the approval of a permit and the payment of all required fees, or following a written letter from the applicant requesting the application be withdrawn and voided, any remaining balance will be refunded to the applicant, typically within 60 days.
